CANUCS

DATABASE NAME
Union List of Serials in the Social Sciences and Humanities Held by Canadian Libraries

DESCRIPTION
The CANUCS database is the online version of the Union List of Serials in the Social Sciences and Humanities Held by Canadian Libraries. Over 34 000 titles are listed, representing the serial holdings of more than 250 Canadian libraries. Serial records are created on DOBIS (the Dortmunder Bibliothekssystem), an integrated library management system.

All forms of material (microforms, reprints, hard copy, etc.) are represented. The following types of material are included: periodicals, annuals, serially published government documents, regularly revised monographs, serially published looseleaf services, monographic series, and proceedings of regularly and frequently held meetings and conferences. The following types of material are excluded: newspapers, law reports, city directories, telephone directories, publishers' series except scholarly numbered series, unnumbered series, house organs of ephemeral interest, calendars of educational institutions, school magazines, staff journals and library accession lists.

SUBJECT COVERAGE
The CANUCS database includes titles in the social sciences and humanities. General interest scientific or technical serials as well as interdisciplinary serials may be included.

UNION

DATABASE NAME
Union List of Scientific Serials in Canadian Libraries

DESCRIPTION
The UNION database is the online version of the Union List of Scientific Serials in Canadian Libraries. Over 64 000 titles are listed representing the serial holdings of more than 295 Canadian libraries. The following types of material are excluded: juvenile titles, newspapers, almanacs, general encyclopedias, handbooks, university calendars, ephemeral publications, Statistics Canada publications and federal government publications with non-distinct titles published at irregular intervals.

SUBJECT COVERAGE
The UNION database includes titles in all fields of science, technology and medicine in the form of journals, periodicals, transactions and proceedings of societies, annuals and monographic series.
